Re 1) Approval of the agenda (2 min.)
The agenda is approved.

Re 2) Approval of the minutes from the last meeting (Annex 1) (2 min.)
The minutes are approved.

Re 3) Orientation from the exemption committee and the credit transfer committees (Annex 2) (5 min.)
No orientations from the administration.

Re 4) Graduate survey for Health Informatics (Dimmitendundersøgelsen) (Annex 3) (5 min.)
The graduate survey was discussed during the subcommittee pre-meeting for Health Informatics. The main points were highlighted at the study board meeting. For next year, it was suggested to compare FSV, S&I and GH.

Re 5) Approval of framework and examination plans for Health Informatics Spring 2027 (Annex 4) (2 min.)
The framework and examination plans for Health Informatics were approved.

Re 6) Approval of the Study Board meetings in Autumn 2026 (Annex 5) (10 min.)
The annex was approved with small adjustments and comments.

Re 7) Orientation of SAMF moving to Søndre Campus Spring 2027 (10 min.)
The Chairperson and Head of Studies, Signe Smith Jervelund, informed the Study Board about the latest news regarding the prospects of moving to a new campus. The plans are still unknown but the first Departments from CSS are being moved to Søndre Campus. Our studies belong to the Faculty of Health and Medical Sciences and will not be moved to Søndre Campus (as we know of now). The students told the members of the Study Board og the high expenses of renting the room “Kommunen” at CSS, which refrain them for arranging parties and other social events (especially the studies with a smaller student body). When SAMF is out of CSS, they are concerned of whether “Kommunen” will be available at all and also the administration and rent expenses (whigh again might

impact the study environment. This will be followed up on the study board to ensure that the students have access.

Re 8) Brief discussion of title changes of the course 'Public health communication after COVID-19' (5 min.)

The title change of the course will be *"Public health science communication"*. **Signe Smith Jervelund** will confirm with course responsible.

Re 9) Approval of changes in list of elective courses. The elective course 'Systematic reviews and meta-analysis – a practical course' will replace 'Cardiometabolic diseases in global populations' due to cancellation from the course responsible (5 min.)

The change is approved by the Study Board. **The administration** will contact course responsible of 'systematic reviews and meta-analysis – a practical course' if they are still interested in running the course.

Re 10) Orientations from the students

HI: They have not received any information or schedule about certain courses from DTU. **The administration** will follow up on the matter with DTU.

GH: No orientations.

PHS: No orientations.

Re 11) Presentation and discussion of the project group's preliminary ideas for the BA Programme Revision (Health Informatics) (30 min.)

Isabella Friis Jørgensen presented the preliminary work on the revision of the BA programme for Health Informatics to the study board. There were discussion and inputs to the work. There is no specific deadline for the revision, but **Iben Mundbjerg Gjødsbøl** and the project group will follow up with the administration on the matter.

Re 12) Orientations from the Head of studies

HI: HI will again this year in October welcome prospective students through Studiepraktik. 34 new BA students and 26 new MA students have been enrolled. The admission grade has increased (7,7 this year).

GH: There are 43 newly admitted students from 20 different countries. Course leaders and others from Global Health have continued with another workshop focusing on what competencies a graduate should have when they finish their master's degree in Global Health -and when these focus-areas are introduced, re-introduced and assessed in the programme.

PHS: The grade for admission for Public Health has increased (9.7 this year). Furthermore, 90% of the applicants chose Public Health as their first choice. Information has been received stating that there will only be a summer intake for the master's programme. This will likely cause some issues, but it cannot be changed.

Re 13) AOB

No other business.
