CLINICAL ROTATIONS AT THE LARGE ANIMAL TEACHING HOSPITAL

The Faculty of Health and Medical Sciences offers clinical training for English-speaking veterinary students. The training will take place at the Large Animal Teaching Hospital for a period of minimum 2 weeks and maximum 8 weeks during July and August 2017.

The training period may involve after-hours services, outside normal working hours on weekdays, as well as working night shifts and on Sundays.

CLINICAL ROTATIONS

Depending on the number of weeks spent at the hospital the following rotations can be included (at least one full week for each rotation):
- Internal medicine
- Surgery
- Mobile practice

The students will take active part in the daily work at the Large Animal Teaching Hospital under direction of responsible veterinarians.

SELECTION CRITERIA

Clinical rotations are available for veterinary students only, and the students must be in their final year of studies in Veterinary Medicine. Students are expected to have basic theoretical knowledge on diagnosing and treatment of common diseases, clinical and basic surgical skills.

HOW TO APPLY

Deadline for application is 15 February 2017 for the summer of 2017.

The coordinator at the home university must nominate the student through the University of Copenhagen online nomination system. When nominated, the student will receive an email with a link to an online application form.

Upon applying the student will be asked to write a brief motivation and to submit their transcript of records. Please mention in the application, if the student wishes to do a combination with clinical rotations at the University Hospital for Companion Animals. We kindly ask the students to compile a list of preferred rotations. However the final planning will be made by the course responsible with no guarantee of preferred rotations.

CREDITS

The student will be awarded 1.5 ECTS per week in the clinic.
