

Study Board for Human Biology, Immunology and Neuroscience

**MINUTES**

10. DECEMBER 2025

**Forum** Study Board for Human Biology, Immunology and Neuroscience

**Meeting held** 17 September 2025, at 15.00-17.00

BLEGDAMSVEJ 3B  
KØBENHAVN N.

**Place** Mærsk Tower, 7.15.122

DIR +45 35 32 02 31

**Minute taker** Astrid Lund Heinsen

[astrid.heinsen@adm.ku.dk](mailto:astrid.heinsen@adm.ku.dk)

**Present:** Anders Woetmann Andersen, Claus Juul Løland, Inês Rodrigues Afonso, Jaime Ramirez Cerrillos, Jan Pravsgaard Christensen, Jens Holm Mikkelsen, Julia Tang, Julia Ruiz Rua, Ole Kjærulff.

**Absent:** Alfredo Ramos Jauregui, Ana Sofia Dionísio Feijao, Annabelle Julia Chiara Bahmann, Morten Schak Nielsen.

**Agenda**

**Ad 1) Approval of the agenda**

Approved.

**Ad 2) Messages**

**a. Students**

Human Biology & Neuroscience: Intro weeks went well. A positive relationship between first- and second-year students is expected.

Immunology and Inflammation: No student representatives were present.

**b. Head of Studies**

SIDE 2 AF 3

Immunology and Inflammation: The programme is nearly at full capacity. Students appear engaged and well prepared.

Human Biology: 35 students have enrolled and made a good impression. Professors have proposed courses on EndNote, systematic research, and a potential elective in Cancer Biology, all of interest to the programme.

Neuroscience: 29 new students have joined the programme. The semester is off to a promising start.

**Ad 3) Approval of admission committees for 2026**

The study board approved the current composition of admission committees.

**Ad 4) Approval of continuation of summer course in 2026 (MSc in Human Biology): SHUA13040U International Summer course Forensic and Genetics and Massively Parallel Sequencing**

The study board approves the continuation of the course. The Board requested clarification of the need for annual approval despite the course running smoothly each year.

[Annual approval is standard for summer courses. The Board's wish for general approval has been noted. The course will continue without yearly approval unless structural or content changes occur.]

**Ad 5) Reminder: UCPH election 2025 for students**

The Study Board emphasized the importance of meeting deadlines. Student representatives and course leaders will inform students about the role and responsibilities of Study Board members.

The Board also requested English election materials, which will be obtained and forwarded.

**Ad 6) Any Other Business**

The study board discussed the process of the cancellation of the course SHUA25061U: Stem Cells in Mammalian Development, Differentiation and Disease.

- The administration apologized for this very unfortunate situation brought onto the students.
- The Study Board decided to look ahead and find a solution for the eight students who are affected by the cancellation.

- The administration agreed to send out additional information to the students outlining their options. The administration will also overrule the general procedures for late registration for elective courses in block 1 and 2 at SUND.
- The course will be completely restructured for next year and hopefully this will not happen again.

SIDE 3 AF 3

**The next Study Board meeting is on 10 December from 15.00 – 17.00.**
