

Evaluation Plan for MSc in Human Biology

Academic year: 2026-2027

Course/activity	Period	Evaluation method
Bacterial Biofilms and Their Role in Chronic Infections (elective)	B1-1E26	Survey
Course in Advanced Cell Biology	B1-1E26	Survey
Course in Bioinformatics and Systems Biology	B1-1E26	Survey
Course in Molecular Biology and Genetics	B1-1E26	Survey
Translational Pharmacology - From Concept to Medical Drug and from Concept to Biotech Company (elective)	B1-1E26	Survey
Advanced Methods for the Analysis of Protein Disease Mechanisms - elective	B2-2E26	Survey
Human Anatomy and Systems Physiology	B2-2E26	Survey
Immunology and Microbiology	B2-2E26	Survey
Pharmacology and Toxicology	B3-3F27	Survey
Laboratory Animal Science, Human Biology	B4-4F27	Survey
International Summer Course: Forensic Genetics and Massively Parallel Sequencing	S27	Survey
Internship for Human Biology (elective)	B1-2E26 + S27	Survey
Master's Thesis, Human Biology	B1-2E26 + B3-4F27	Survey
