Re: Transitional arrangements between the 2015 MSc in Global Health curriculum (with approval of 1st September 2017) and the 2015 MSc Global Health curriculum (with approval of 1st September 2018)

Case handler Senior adviser Eva Duberg Nielsen

Transitional arrangements:
This transitional arrangement was approved by the Study Board for Public Health Science and Global Health on 19th January 2018.

Commencement date for the changes
This revised 2015 curriculum comes into force on 1st September 2018 and applies to students who are enrolled at the MSc in Global Health programme from that date.

List of transitional arrangements content:
- Outline of the changes to courses and exams
- Outline of when the courses and exams will be offered to the students for the first and the last time

Changes between the 2015 MSc in Global Health curriculum (with approval of 1st September 2017) and the 2015 MSc Global Health curriculum (with approval of 1st September 2018):
The Study Board for Public Health Science and Global Health has on 19th January 2018 decided to implement a revised version of the 2015 curriculum that comes into force on 1st September 2018.

Outline of the changes:
The course and exam in Field Work, 2nd semester, block 3, changes names to Study Exposure Course, 2nd semester, block 3. There are no changes to the course content or exam form.

Furthermore, the course and exam in Drivers of Change in Human Health: Coping with population and environmental dynamics, 1st semester, block 1, are replaced by the course and exam in Health Research Methodology, 1st semester, block 2. This means, that the course and exam in Health Research Methodology, 1st semester, block 2, are replaced by the course and exam in Drivers of Change in Human Health: Coping with population and environmental dynamics, 1st semester, block 1.

The changes between the courses and exams in Drives of Change in Human Health and Health Research Methodology have no implications for the layout of these transitional arrangements, and are only mentioned for the sake of information. There are no changes to the remaining courses or course placements.

Changes in courses and exams:

<table>
<thead>
<tr>
<th>1st semester</th>
<th>Block 1</th>
<th>Courses of the 2015 MSc in Global Health curriculum (with approval of 1st September 2017):</th>
<th>Replaced in the 2015 MSc Global Health curriculum (with approval of 1st September 2018):</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td>Drivers of Change in Human Health: Coping with population and environmental dynamics (7.5 ECTS)</td>
<td>Health Research Methodology (7.5 ECTS)</td>
</tr>
</tbody>
</table>
Outline of when the courses and exams will be offered to the students for the first and the last time:

1. From 1st September 2018, the courses and exams in Health Research Methodology and Drivers and Change in Human Health will be offered as shown below (in the 2015 curriculum (with approval from 1st September 2018)):
2. From 1st September 2018 the course in Field Work will no longer be offered, but the exam in Field Work will be offered in the following three exam periods as shown below (in the 2015 curriculum (with approval from 1st September 2017)):

<table>
<thead>
<tr>
<th></th>
<th>Study year 2018/19, block 3, ordinary exam period</th>
<th>Study year 2018/19, block 3, re-exam period</th>
<th>Study year 2019/20, block 3, ordinary exam period</th>
</tr>
</thead>
<tbody>
<tr>
<td>Field Work (15 ECTS)</td>
<td>X</td>
<td>X</td>
<td>X</td>
</tr>
</tbody>
</table>

Students who are enrolled no later than 1st September 2017 and who have not passed the exam in Field Work after the exam is offered for the last time in the spring semester 2019, must instead register for the next exam in Study Exposure Course.
